**FCI-Standard N° 318**

**KISHU**

**ORIGIN:** Japan.

**DATE OF PUBLICATION OF THE OFFICIAL VALID STANDARD:** 30.10.2016.

**UTILIZATION:** Hunting dog, companion.

**FCI-CLASSIFICATION:** Group 5 Spitz and primitive type.  
Section 5 Asian Spitz and related breeds.  
Without working trial.

**BRIEF HISTORICAL SUMMARY:** This breed originated from medium-sized dogs that existed in Japan in ancient times. It became established as a breed in the mountainous districts in Kishu (Wakayama and Mie Prefecture). Initially, these dogs' coats were often marked with conspicuous colours such as red, sesame or brindle. From 1934, however, only solid colours were accepted for this breed; conspicuously marked coats had disappeared by 1945, never to reappear. Currently, white coats may be found in this breed. These dogs are used for hunting, now mainly wild boar, but at one time also deer. The breed took on the name of the region where it was bred. It was designated as a « natural monument » in 1934.

**GENERAL APPEARANCE:** Medium-sized dog, well balanced and muscles well developed. The dog has pricked ears and a curled or sickle tail. The conformation is strong, well boned and compact.

**IMPORTANT PROPORTIONS:** The ratio of height at withers to length of body is 10 : 11.

**BEHAVIOUR / TEMPERAMENT:** Dog of noteworthy endurance, showing nobility, dignity and naive feeling. The temperament is faithful, docile and very alert.
